

A Day in the Life

10:40am

RHCD Preschoolers enjoy the morning sunshine as we recognize the connection between academic success and social-emotional growth, which is why we incorporate health and wellness education into our students' daily lives.

9:30am

The expansive RHCD campus, with seemingly endless woodlands and waterfront views, allows our students to stretch both their minds and their bodies.

11:15am

Our Faculty never miss an opportunity to encourage students to #ThinkOutside. At RHCD, we focus on active, deeper learning, the kind that endures for students, and builds their intellect, compassion, and creativity, leading to a sense of agency to make a difference in the world.

1:30pm

The Visual and Performing Arts are an integral part of our curriculum. As Mariner musicians prepare for upcoming RHCD Instrumental and Choral concerts, students in ceramics class create beautiful pottery pieces that engage their imagination and problem-solving skills with originality!

4:00pm

Our athletic programs operate within the framework of The Mariner Way – a philosophy centered on **resiliency, effort,** and **pride.** Every practice, every game, every team trip, every workout – we do things The Mariner Way.
